A CLASSICAL TOUCH

Following the success of our prestigious 65mm Classical Signature Collection, we have chosen to offer some features from this Collection on many of our 47mm Advent poles.

This gives you the opportunity to offer a more opulent look on a smaller scale, whilst still making a classical statement.

These features include:

Classical Gold and Silver Metal Leaf

Classical Brackets

Classical Highlights

In addition to this, the Classical Brackets may also be specified in many of the other finishes from our Advent Collections.

A number of examples are shown in the following pages, but if you have any queries, please contact us directly or visit our website.

Classical Gold and Silver Metal Leaf

Almost all of our designs from the Advent Collections are also available in our signature range of classical Gold and Silver Metal Leaf finishes; in all three sizes.

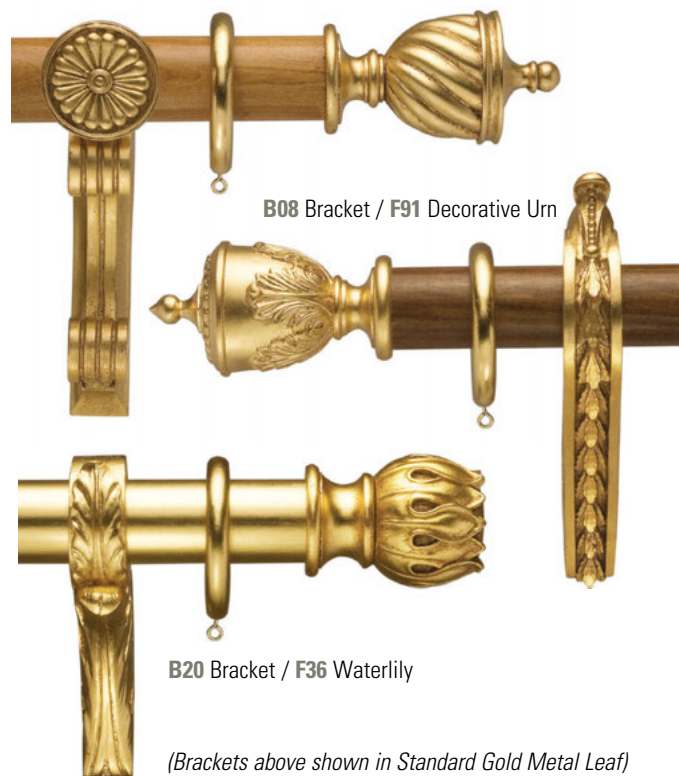

A more reflective and lustrous appearance than our Metallic Paint finishes; our Metal Leaf has become the preferred choice where a more refined gold or silver colour is required.

Our Metal Leaf is available in either a Standard or Antique version, with a choice of base coat colours.

For more detailed information on our Metal Leaf finishes, please visit our website:

Classical Brackets – 47mm

To further enhance the versatility of our 47mm Advent poles, we can now offer 3 decorative brackets, all available in any of our signature range of Gold and Silver Metal Leaf finishes.

These options enable you to offer your discerning customers the opportunity to acquire a more ornate, classical look ... but on a smaller scale and at a lower price point than our 65mm poles featured in our Classical Signature Collection.

These decorative brackets are designed to fit our 47mm poles. They can be made available in most of our other finishes (please see the table *on right* for suitability).

For pricing of these Classical items, please see Page 10 of the price list.

Classical Highlights

Our standard Gilt Highlights are created by combining metallic powders with special lacquers.

As an alternative, you may specify genuine Metal Leaf to be used to highlight the design of your choice.

This is the same method we use on designs found in our highly respected Classical Signature Collection. It costs a little extra, but we think the results are worth it.

Classical Brackets – 47mm

A Classical Statement ... on a Grand Scale

If you are seeking to offer your clients something rather unique ... a little indulgent ... and perhaps something they cannot find in the average furniture store ... our **65mm Classical Signature Collection** may be just what you are looking for.

The classically enduring designs, authentic period finishes and exclusivity, ensures that a pole chosen from our Classical Signature Collection is certain to add 'drama' to any scheme and become a real focal point in the room.
